Formica Group

Η FORMICA ΕΙΝΑΙ Η ΕΤΑΙΡΙΑ ΠΟΥ ΕΧΕΙ ΕΦΕΥΡΕΙ ΤΗ ΦΟΡΜΑΪΚΑ, ΕΞ ΟΥ ΚΑΙ ΤΟ ΟΝΟΜΑ ΤΗΣ. ΕΙΝΑΙ ΜΙΑ ΑΠΟ ΤΙΣ ΜΕΓΑΛΥΤΕΡΕΣ ΠΑΡΑΓΩΓΟΥΣ LAMINATE ΣΤΟΝ ΚΟΣΜΟ. ΕΠΙΣΗΣ ΠΑΡΕΧΕΤΑΙ ΣΤΟΥΣ ΑΡΧΙΤΕΚΤΟΝΕΣ ΚΑΙ ΔΙΑΚΟΣΜΗΤΕΣ, Η ΕΞΕΙΔΙΚΕΥΜΕΝΗ ΥΠΗΡΕΣΙΑ FORMICA DIGITAL, ΠΟΥ ΕΠΙΤΡΕΠΕΙ ΤΗΝ ΥΛΟΠΟΙΗΣΗ ΤΗΣ ΟΠΟΙΑΣΔΗΠΟΤΕ ΕΜΠΝΕΥΣΗΣ, ΛΟΓΟΤΥΠΟΥ, ΦΩΤΟΓΡΑΦΙΑΣ ΑΚΟΜΑ ΚΑΙ ΑΠΛΟΥ ΣΚΑΡΙΦΗΜΑΤΟΣ, ΣΕ REQUEST ΕΠΙΦΑΝΕΙΑ, ΜΕ ΥΨΗΛΗΣ ΕΥΚΡΙΝΕΙΑΣ ΕΙΚΟΝΑ ΚΑΙ ΜΕ ΟΛΕΣ ΤΙΣ ΠΙΣΤΟΠΟΙΗΣΕΙΣ ΚΑΙ ΑΝΤΟΧΕΣ ΤΟΥ LAMINATE. ΤΟ LAMINATE ΑΥΤΟ ΜΠΟΡΕΙ ΝΑ ΠΑΡΑΧΘΕΙ ΜΕ ΠΡΟΔΙΑΓΡΑΦΕΣ ΤΟΣΟ ΓΙΑ ΕΣΩΤΕΡΙΚΟ ΟΣΟ ΚΑΙ ΓΙΑ ΕΞΩΤΕΡΙΚΟ ΧΩΡΟ, ΟΠΩΣ Π.Χ. ΤΡΑΠΕΖΑΚΙΑ ΕΣΤΙΑΣΗΣ ΕΞΩΤΕΡΙΚΟΥ ΧΩΡΟΥ, ΠΡΟΣΟΨΕΙΣ ΟΛΟΚΛΗΡΩΝ ΚΤΙΡΙΩΝ Κ.Τ.Λ. ΔΙΑΤΗΡΩΝΤΑΣ ΑΝΑΛΛΟΙΩΤΗ ΤΗΝ ΕΠΙΦΑΝΕΙΑ.

ΖΗΤΗΣΤΕ ΜΑΣ ΝΑ ΣΑΣ ΕΝΗΜΕΡΩΣΟΥΜΕ ΓΙΑ ΤΗΝ ΤΙΜΗ ΚΑΙ ΤΗΝ ΔΙΑΣΤΑΣΗ ΤΟΥ ΚΩΔΙΚΟΥ ΠΟΥ ΣΑΣ ΕΝΔΙΑΦΕΡΕΙ.

Formica Group

Formica Group is a worldwide leading provider of branded, design coordinated surfacing solutions for commercial and residential customers. As the largest manufacturer of High High Pressure Laminate (HPL) our worldwide network of manufacturing, distribution distribution and sales operations maintains the recognition of Formica® as a global brand. Working closely with architects, designers and specifiers, the company is ideally placed to offer new products and decors which complement current design trends, and has an ongoing product design and development process.

Formica

Η **Formica** είναι η κορυφαία επωνυμία στον κόσμο στον σχεδιασμό, την κατασκευή και την εμπορική διάθεση λύσεων για επενδύσεις.

Η στρωματοποίηση υψηλής πίεσης, με την οποία παράγονται τα είδη λαμινέιτ, είναι μια τεχνική που επινόησαν το 1913 δύο αμερικανοί ερευνητές, οι οποίοι ανακάλυψαν ότι μπορούσαν να κατασκευασθούν μονωτικά υλικά υψηλής ποιότητας με τη χρήση υψηλής πίεσης και πλαστικών ρητινών. Αυτοί ίδρυσαν την εταιρία Formica Corporation, στο Cincinnati της πολιτείας Ohio, στις ΗΠΑ.

Έκτοτε η εταιρία εξελίσσεται διαρκώς, εντάσσοντας στη γκάμα της νέα προϊόντα χάρη στα οποία έχει καταστεί επωνυμία αναφοράς σε παγκόσμιο επίπεδο, με παρουσία σε περισσότερες από 100 χώρες στον κόσμο.

Η Formica, s.a. είναι η θυγατρική της Formica Corporation στην Ευρώπη. Έχοντας τοπική αποθήκη στην Ελλάδα αλλά και με τακτικές παραδόσεις από τα εργοστάσια της Ισπανίας, Αγγλίας και την αποθήκη της Γαλλίας, μπορεί να εξυπηρετήσει οποιαδήποτε παραγγελία όσο μικρή ή μεγάλη είναι.

Αυτό το δίκτυο αποθηκών μας επιτρέπει να ανταποκρινόμαστε ταχέως σε κάθε αίτημα των πελατών μας, όταν και όπου χρειάζεται.

Όπως και ο όμιλος Formica σε παγκόσμιο επίπεδο, η Formica, s.a. είναι πρωτοπόρος και κορυφαία εταιρία στον κλάδο της κατασκευής, του σχεδιασμού και της εμπορικής διάθεσης ειδών λαμινέιτ και άλλων υλικών για επενδύσεις.

Η σειρά FORMICA for life παρέχει στους αρχιτέκτονες, τους διαμορφωτές εσωτερικών χώρων και τους διακοσμητές πολλαπλές δυνατότητες ώστε να αφήσουν ελεύθερη τη φαντασία τους. Πρόκειται για την πιο πλήρη πρόταση όσον αφορά χρώματα, σχέδια, φινιρίσματα και υλικά για τη δημιουργία χώρων καινοτόμων και κατάλληλων για κάθε τύπο δραστηριότητας, καθώς η Formica βρίσκεται παντού γύρω μας.

Από λαμινέιτ που συγκεντρώνουν τα καλύτερα στοιχεία της φύσης ή μέταλλα με χαρακτηριστικά ανώτερα του πραγματικού έως προϊόντα που επιτρέπουν τη μέγιστη εξατομίκευση με ψηφιακή εκτύπωση.

Ως παγκόσμια επιχείρηση, η Formica Corporation επιβεβαιώνει με τον τρόπο αυτό την ηγετική της θέση στον σχεδιασμό, την ποικιλία των προϊόντων και την τεχνική αρτιότητα, με μια ευρεία γκάμα ειδών λαμινέιτ υψηλής απόδοσης και προϊόντων πρώτης ποιότητας.

Το λαμινέιτ της Formica είναι ένα ανθεκτικό υλικό, με μεγάλη διάρκεια ζωής που δεν απαιτεί συντήρηση. Επιπλέον, είναι οικολογικό επειδή κατασκευάζεται από φύλλα χαρτιού Kraft (ανακυκλωμένο χαρτί), επενδυμένου με ένα φύλλο χαρτιού τυπωμένου με μελάνες που δεν περιέχουν βαρέα μέταλλα.

COMPACT

Προσπαθώντας να καλύψουμε τις τρέχουσες ανάγκες των σχεδιαστών και κατασκευαστών σε νέα πρωτοποριακά υλικά, σας παρουσιάζουμε το **COMPACT**, το οποίο είναι μια νέα πολύπλευρη σειρά φορμάικας κατασκευασμένη από πολλαπλά επικολλημένα φύλλα εμποτισμένου χαρτιού **KRAFT** με χρωματολόγιο από όλες τις υπάρχουσες σειρές της **FORMICA**.

Είναι διαθέσιμη σε πάχη από 2 έως 20 mm.

Το σόκορο έχει 2 χρώματα: μαύρο και καφέ. Μπορεί να χρησιμοποιηθεί σε κατασκευές επίπλων όπως τραπέζια, καρέκλες, πάγκους. Επίσης είναι ιδανικό για επενδύσεις επιφανειών σε ντους, σε τουαλέτες και για την κατασκευή φοριαμών.

Cubicals (Διαχωριστικά) και τα Lockers (Ερμάρια)

Τα **Cubicals** (Διαχωριστικά) και τα **Lockers** (Ερμάρια) αποτελούν ίσως την πιο διαδεδομένη χρήση του **COMPACT Laminate**, ακριβώς επειδή οι ιδιότητες του COMPACT το κάνουν ιδανικό για: τουαλέτες, αποδυτήρια, ντους σε χώρους όπως: αεροδρόμια, γυμναστήρια, κολυμβητήρια, νοσοκομεία, πλοία.

Το HPL είναι ένα υλικό που αποτελείται από πολλαπλά στρώματα χαρτιού κορεσμένα με θερμοσκληρυνόμενες ρητίνες που μέσω της συνδυασμένης δράσης υψηλής πίεσης (>7 MPa) και θερμοκρασίας (140-150 °C) κατά το στάδιο της παραγωγής δίνουν ένα απόλυτα συμπαγές προϊόν κατάλληλο για πολλές χρήσεις και με εξαιρετικές ιδιότητες. Οι σπουδαιότερες από αυτές είναι η ομοιογένεια του υλικού και η πολύ υψηλή πυκνότητά του που το καθιστούν απρόσβλητο από το νερό και τα χημικά τόσο στη μάζα του όσο και στην επιφάνειά του.

Η σύνθεσή του είναι 70% χαρτί και 30% ρητίνες. Η επιφάνειά του είναι ιδιαίτερα ανθεκτική στα γδαρσίματα και στη φωτογήρανση, ενώ καθαρίζεται εύκολα με κάθε είδους καθαριστικό.

Είναι αδιάβροχο, ανθεκτικό στα χτυπήματα και τα γδαρσίματα και εύκολο στο καθάρισμα, ενώ το υλικό δεν είναι πορώδες και δεν απορροφά ακαθαρσίες, διατίθεται δε σε όλα τα χρώματα των σειρών της **FORMICA** και σε **DIGITAL εκτυπώσεις**. Η **FORMICA** παρέχει στους πελάτες της και την δυνατότητα να προμηθευτούν ένα έτοιμο τυποποιημένο σύστημα διαχωριστικών και ερμαρίων, στην περίπτωση που δεν επιθυμούν να το κατασκευάσουν μόνοι τους.

Τα διαχωριστικά κατασκευάζονται από **COMPACT laminate** της **FORMICA** πάχους 12 mm και πλαίσιο είτε ανοδιωμένο αλουμίνιο είτε αλουμίνιο με πολυεστερική βαφή σύμφωνα με τα Qualicoat Standards.

Το τελικό ύψος είναι 2.040 mm (συμπεριλαμβανομένου κενού 20 mm από το πάτωμα) ενώ το βάθος είναι κατόπιν παραγγελίας. Οι τυποποιημένες πόρτες είναι 1800 x 600 ή 800.

Τα ερμάρια κατασκευάζονται είτε εξ' ολοκλήρου από **COMPACT laminate** της **FORMICA** (πλαϊνά και πλάτη 6 mm πάχος) είτε με συνδυασμό **COMPACT** και μελαμίνη 8 mm, όπου δεν υπάρχουν μεγάλες απαιτήσεις σε ανθεκτικότητα και υγρασία. Προσφέρονται με πολλές εναλλακτικές λύσεις κλειδαριάς: με νόμισμα, με μηχανισμό, με κλειδί κ.α.

Αναλυτικά μία καμπίνα WC αποτελείται από:

- Πανέλα HPL FORMICA COMPACT Πάχους 12mm.
- Ανεξάρτητα προφίλ αλουμινίου για στήριξη στον τοίχο και περιμετρικά του άνω μέρους.
- Ανοξείδωτα ρυθμιζόμενα ποδαρικά στήριξης στο δάπεδο (ρύθμιση στο 130mm έως 170mm), μεντεσέδες self closing και κλειδαριά με ένδειξη "χωρίς κλειδί" με δυνατότητα ανοίγματος απ' έξω. Οι τυποποιημένες διαστάσεις της καμπίνας είναι 2000mm ύψος και 1400mm βάθος. Μπορούν όμως να κατασκευαστούν και σύμφωνα με τις ακριβείς διαστάσεις του χώρου.

Εσωτερικές πόρτες κτιρίων

Μια βασική χρήση του **HPL** είναι οι εσωτερικές πόρτες κτιρίων. Το HPL είναι ιδανικό γι' αυτή την χρήση αφού συνδυάζει τις πυράντοχες ιδιότητες με την σύγχρονη διακοσμητική τάση. Τα φύλλα HPL, χρησιμοποιούνται για την επένδυση της τελικής επιφάνειας από **MDF** ή **κόντρα πλακέ**. Για το πρεσάρισμα των φύλλων δίδονται συγκεκριμένες προδιαγραφές και οδηγίες, ενώ διατίθενται ειδικές διαστάσεις για μείωση της φύρας (π.χ. 2150 x 950).

Η **FORMICA** προσφέρει μια σειρά από έτοιμες πόρτες ειδικών απαιτήσεων, οι οποίες είναι δύσκολο να κατασκευαστούν από μη εξειδικευμένα εργοστάσια, χωρίς περιορισμούς στις ποσότητες και σύμφωνα με τις επιθυμητές διαστάσεις.

Πιο συγκεκριμένα προσφέρονται:

- **Πόρτες υδροαπωθητικές.** Το εσωτερικό τελάρωμα κατασκευάζεται από COMPACT HPL ή από ξυλεία ανθεκτική στην υγρασία. Τα ενδιάμεσα κενά, πληρούνται με διογκούμενη υδροαπωθητική πολυουρεθάνη. Η επιφάνεια επενδύεται με HPL πάχους 2 mm.
- **Πόρτες ηχομονωτικές** (47 db). Ξύλινο εσωτερικό τελάρωμα και επενδύομενη επιφάνεια, με ηχομονωτικό υλικό πλήρωσης και τελική επένδυση με HPL πάχους 2 mm.
- **Πόρτες πυράντοχες** (PRF-30', 60' και 90'). Εσωτερικό τελάρωμα από πυράντοχο MDF, με ειδικό υλικό πλήρωσης και τελική επένδυση με HPL πάχους 1.2 mm.
- **Πόρτες με αντίσταση στη ραδιενεργό ακτινοβολία** (X-rays). Κατασκευασμένες για ακτινολογικά εργαστήρια, MRI κ.λπ. Ειδική κατασκευή εσωτερικού τελαρώματος (με παρεμβολή φύλλου μολύβδου και υλικού πλήρωσης. Η επενδύομενη με HPL πάχους 2 mm επιφάνεια, κατασκευάζεται από MDF πάχους 7 mm.

Product descriptions

Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

Formica® High Pressure Laminate (HPL) is manufactured through fusing multiple layers of impregnated paper under high pressure and temperature to create a hard wearing, durable and hygienic surfacing material. The Formica® Colors, Patterns and Woods ranges are high pressure laminates which are available in horizontal grade postforming (HGP) as standard. Flame retardant HPL (VFP grade) is also available on request.

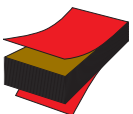

ColorCore®

SOLID COLOUR LAMINATES by FORMICA GROUP

ColorCore® by Formica Group is a dramatic and exciting surfacing material that features the high performance characteristics of Formica® decorative laminates with the added dimension of solid through colour. This homogeneous colour obviates the dark line sometimes associated with laminate edges and permits decorative effects to be created by engraving and routing. ColorCore in Matte 58 texture increases levels of wearability and reduces the visual impact of chips and scratches. ColorCore is ideal for applications such as counter tops, point-of-sale units, doors and work surfaces.

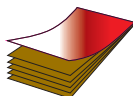

ColorCore is available in decors selected from Formica Colors range. Due to the special characteristics of ColorCore, exact matches between ColorCore and Formica Colors may not always be possible. We recommend the comparison of actual samples prior to specification or fabrication.

Formica® Compact

STRUCTURAL LAMINATES by FORMICA GROUP

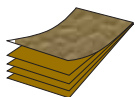

Formica® Compact is a high pressure structural laminate, built up from multiple layers of kraft paper to produce a laminate in thicknesses from 2mm to 20mm. It has a decorative face on both sides and is ideal for interior use in washroom cubicles or locker doors, wall panels or laboratory furniture. It is particularly suited to use in high humidity, high impact areas. With a weight of 14,5 kg/m² (for 10mm thickness), Compact is impressively strong and damage resistant and has remarkable structural stability, requiring no substrate support in thicknesses over 6mm. Formica Compact is certified by the CE Mark to meet or exceed conformity with European consumer safety, health and environmental requirements.

PREMIUM GLOSS FINISH by FORMICA GROUP

AR Plus® by Formica Group offers a hassle-free, durable high gloss laminate with twice the surface performance of standard gloss laminate. The AR Plus technology delivers a gloss surface that is highly resistant to scuffs and mar abrasions, extending the gloss laminate life cycle. AR Plus high gloss laminates are 1.2mm thickness postforming grade. Due to the increased thickness of this material a minimum radius of 15mm is recommended. Flame retardant AR Plus laminate (FAR grade) is also available on request.

Product descriptions

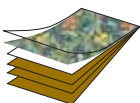

DecoMetal®

METAL LAMINATES by FORMICA GROUP

DecoMetal® by Formica Group High Pressure Laminate is created using real metal foils over a laminate core to create stunning metallic laminates that are durable but very light compared to sheet metal. Textures and patterns are applied to some metallic laminates to create outstanding effects. A complete range of striking colours, patterns and finishes is available. Nominal thickness varies depending upon metallic foil and texture.

DecoMetal laminates meet the requirements of EN438:2005 Grade MTF with IMO/MED and USCG fire requirements approval. Please request specific details.

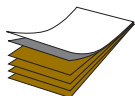

Younique®

DESIGN A LAMINATE by FORMICA GROUP

Younique® by Formica Group is a High Pressure Laminate with a customised, printed image as its decorative face. The printed image in Younique laminates is incorporated in the laminate structure and not just printed on the surface; this affords a much greater resistance to damage and ease of maintenance. Younique laminates can be either single sided, thin High Pressure Laminate, or Compact in single sided or double sided format in varying thicknesses and textures.

All Younique projects are priced on volume and complexity. For further information on sizes, pricing quotes, lead-time, file transfer options, etc. go to www.formica.com or contact your local Formica Group sales office or representative.

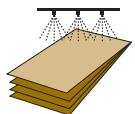

Formica® Magnetic Laminate

SURFACES FOR COMMUNICATING by FORMICA GROUP

Formica® Magnetic Laminate is a decorative laminate with all the benefits and assured quality of traditional Formica® laminate but with added advantages ideal for communication and display. Formica Magnetic Laminate helps to create practical, fun and functional spaces at home, at school or in the workplace. Carefully selected colours and a mix of surface finishes combine to offer a wide variety of applications and uses in environments such as retail, education, commercial and residential.

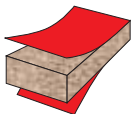

All achieve a very high magnetic effect and can be written on with chalks or special board markers, making them ideal for use as display, presentation and information boards. They can also provide the perfect backdrop for visual display projection.

Formica Ligna®

NATURAL WOOD SURFACING by FORMICA GROUP

Formica Ligna® laminates combine the natural warmth of real wood with the versatility and practicality of Formica® Laminate. Ideal for interior, vertical applications, Formica Ligna engineered veneer laminates offer a beautiful variety of species, colours and surface finishes but with greater consistency than conventional veneers and, at the same time, respecting the environment.

UNILIN MELAMINE FACED BOARDS

Melamine faced boards with a good density core and a level sanded surface on the top and bottom sides of the board surfaces. A decorative melamine layer with stylish surface structure is pressed on top of these layers under pressure and at a high temperature. The melamine process binds the decorative sheet permanently to the board. The boards are suitable for general use in dry spaces.

TRUE SCALE

Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE *by* FORMICA GROUP

True Scale laminates by Formica Group mirror the exotic characteristics of natural materials across the full width of the sheet, without the repetition of pattern found on conventional laminates, bringing exquisite detail on an architectural scale.

Younique®

DESIGN A LAMINATE *by* FORMICA GROUP

Younique® by Formica Group is a High Pressure Laminate with a customised, printed image as its decorative face. The printed image in Younique laminates is incorporated in the laminate structure and not just printed on the surface; this affords a much greater resistance to damage and ease of maintenance.

Younique® by Formica Group brings you a one-of-a-kind service that enables you to design a laminate and fully integrate patterns, logos, photographs, or graphics into your project design, creation and installation.

Younique® utilises the latest in print technologies to deliver optimum visual replication of your designs and original artworks. Access to both digital and silk-screen prints is another advantage provided by Formica Group. Our team will advise you on the best printing options according to your project needs for image optimisation and the most economical solution on a project-by-project basis.

Product grades

This Collection incorporates the following grades of decorative laminate each with its own performance characteristics.

These grades conform to EN438:2005.

Formica® Laminate

Grade HPL/EN 438-3 HGP:

Horizontal, General Purpose, Postforming high pressure decorative laminate. (0.7mm nominal thickness).

Grade HPL/EN 438-3 HGS:

Horizontal, General Purpose, Standard high pressure decorative laminate. (0.7mm nominal thickness).

Grade HPL/EN 438-3 HGF:

Horizontal, General Purpose, Flame Retardant high pressure decorative laminate. (1.0mm nominal thickness).

Grade HPL/EN 438-8 ATP:

Pearlescent, postforming thin high pressure decorative design laminate. (1.2 mm nominal thickness).

Grade VFP:

Vertical, Flame Retardant, Postforming high pressure decorative laminate. (0.7mm nominal thickness).

VFP does not appear in the EN 438 grade classification system.

ColorCore® by Formica Group

Grade HPL/EN 438-9 BTS:

Coloured core, Standard Grade, Thin high pressure decorative laminate.

Grade CAR:

Abrasion-resistant, High-gloss, Coloured core, Thin high pressure decorative laminate.

Grade CAR does not appear in the EN 438 grade classification system.

Formica® Compact

Grade HPL/EN 438-4 CGS:

Compact, General Purpose, Standard high pressure decorative laminate. EN 13501 Euroclass D-s2,d0

Grade HPL/EN 438-4 CGF:

Compact, General Purpose, Flame Retardant high pressure decorative laminate. EN 13501 Euroclass ≥ 6 mm B-s1,d0.

AR Plus® by Formica Group

Grade PAR:

Abrasion-resistant, High-gloss, Postforming high pressure decorative laminate.

Grade FAR:

Abrasion-resistant, High-gloss, Flame Retardant high pressure decorative laminate.

PAR and FAR do not appear in the EN 438 grade classification system.

DecoMetal® by Formica Group

Grade HPL/EN 438-8 MTF:

Metal, Flame retardant, Thin high pressure decorative design laminate.

Grade HPL/EN 438-8 MTP:

Metal, Postforming, Thin high pressure decorative laminate.

MTF and MTP grades are recommended for vertical applications.

DecoMetal® laminates meet the requirements of EN438:2005.

Grade MTF with IMO/MED and USCG fire requirements approval.

Please request specific details.

Classification of resistance to fire to EN 13501-1:2010-01 B-s1, d0

Grade VGS:

Vertical, General Purpose, Standard high pressure decorative laminate (1.3mm nominal thickness).

M5316 Korten features a melamine surface incorporating iron particles. Some magnetic effect may be evident. Sparks can be emitted during processing.

M5316 Korten is a hand-made design and each individual sheet is unique. Variations between sheets are characteristic of the design and manufacturing process.

Formica® Magnetic Laminate

Grade MLB:
Magnetic Laminate Standard.

MLB does not appear in the EN 438 grade classification system.

Formica Ligna®

Grade VVS:
Veneer, Vertical, Standard (1.0mm nominal thickness).

Grade VVF:
Veneer, Vertical, Flame Retardant (1.0mm nominal thickness).

*Classification of resistance to fire to EN 13501-1:2010-01 C-s2,d0
IMO/MED & USCG fire requirements approval to FTP Code Annex 1, Part 5 No.2.1 and Part 6 No.2.1
Formica Ligna grade VVF is available to order, subject to minimum order quantities and lead times.
VVS and VVF do not appear in the EN 438 grade classification system.*

Younique® by Formica Group

Grade HPL/EN 438-3 HGP:
Horizontal, General purpose, Postforming high pressure decorative laminate. (0.7 mm nominal thickness).

Grade HPL/EN 438-3 HGS:
Horizontal, General purpose, Standard high pressure decorative laminate. (0.9 mm nominal thickness).

Grade HPL/EN 438-4 CGF*:
Compact, General purpose, Flame Retardant high pressure decorative laminate. (3-20 mm nominal thickness).

Grade HPL/EN 438-4 CGS:
Compact, General purpose, Standard high pressure decorative laminate. (3-20 mm nominal thickness).

Grade VFP*:
Vertical, Flame Retardant, Postforming high pressure decorative laminate. (0.7 mm nominal thickness).

*VFP does not appear in the EN 438 grade classification system.
Only available in silk-screen print.

The information given in this brochure is correct at the time of publication. However, as we have a policy of constant product development and improvement, product details may change in the future.

Formica Group is FSC® certified and complies with the requirements of FSC. Network of participating European Formica Group sites is shown on certificate number TT-COC 003588.

FORMICA® Washroom Collection

A FRESH NEW RANGE

We present to you the new
FORMICA® Washroom Collection.

A fresh and on-trend collection, offering a valuable,
one-stop resource of quality Formica® products for architects,
designers and manufacturers of commercial and public washrooms
and related environments.

A more **extensive range** incorporates innovative decors and surface
finishes so that your designs will be right on the pulse of current trends.

In addition to the assurance that Formica products will perform in these
demanding environments, the new collection brings you three new and enriching
textures in a refreshed and contemporary range, perfect for mixing and matching.

Plus, the new **Younique®** service offers you endless possibilities to
customise your projects and make them completely one-of-a-kind.

Bring excitement to your projects with **FORMICA® Washroom Collection.**

A photograph of a row of modern, blue washroom stalls. The stalls are made of a solid blue material, likely Formica, and feature silver-colored metal hardware, including door handles and floor-mounted hinges. The floor is covered in a dark, textured carpet. The lighting is bright, casting shadows on the carpet and the blue panels. The text "YOUR CHOICE OF TWO PRODUCTS FOR THE BEST SOLUTION" is overlaid on the left side of the image.

YOUR
CHOICE
OF
TWO
PRODUCTS
FOR
THE
BEST
SOLUTION

FORMICA® Washroom Collection

is available in **Formica®** postforming grade laminate and **Formica® Compact**. Two perfectly compatible products sharing the same range of designs so you can choose the best solution in every situation to create stylish, practical and functional environments.

Formica® Compact

STRUCTURAL LAMINATES by FORMICA GROUP

Ideally suited to particularly demanding environments subject to high levels of humidity, impact, and wear and tear; cubicles, locker systems and wall linings.

Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

An ideal solution for the demands of the modern washroom environment. Formica® postforming grade laminate meets the need for stylish, curved elements; vanity units with integral upstands; cubicle systems and wall panelling with gentle, curved edges.

Formica® products provide unbeatable solutions for washroom applications such as cubicles, lockers, vanity units and wall panelling.

- Highly resistant, durable and dependable.
- Easy to maintain.
- Hygienic and easy to clean.
- High resistance to moisture.
- FSC® certified across complete range.
- **Formica Compact** features a black core with a decorative surface on two sides.
- **Formica Compact** is CE certified to meet or exceed conformity with European consumer safety, health and environmental requirements.

INTRODUCING YOUNIQUE® SOLUTIONS

Younique® by Formica Group brings you a one-of-a-kind service, enabling you to fully integrate patterns, logos, photographs, or any type of image into your project design, creation and installation.

Set your imagination free.

Younique offers you endless solutions to create customised and personalised environments.

Younique®

DESIGN A LAMINATE *by* FORMICA GROUP

Younique®

DESIGN & LAMINATE *by* FORMICA GROUP

A WIDE RANGE OF POSSIBILITIES

The new FORMICA®
Washroom Collection designs
can be easily mixed and matched
to bring a contemporary and
innovative air to environments.

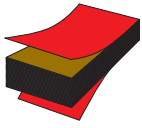

A total of 52 designs, 25 of them new,
offer you a wide and colourful range of
possibilities to choose from.

In addition, the new collection introduces three new
finishes: **Plex™** (red dot design award), **Puregrain™**
and **Linewood™**, bringing surfaces to life with the touch
of crisp textiles and brushed, natural timber.

Formica® Compact

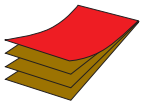

STRUCTURAL LAMINATES by FORMICA GROUP

Formica® Compact is a high pressure structural laminate, built up from multiple layers of kraft paper to produce a laminate in thicknesses from 2mm to 20mm. It has a decorative face on both sides and is ideal for interior use in washroom cubicles or locker systems, wall panels or laboratory furniture. It is particularly suited to use in high humidity, high impact areas. With a weight of 14,5 kg/m² (for 10mm thickness), Compact (grade CGS) is impressively strong and damage resistant and has remarkable structural stability, requiring no substrate support in thicknesses over 6mm. Formica® Compact is certified by the CE Mark to meet or exceed conformity with European consumer safety, health and environmental requirements.

Formica® Laminate

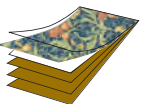

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

Formica® High Pressure Laminate (HPL) is manufactured through fusing multiple layers of impregnated paper under high pressure and temperature to create a hard wearing, durable and hygienic surfacing material. The Formica® Colors, Patterns and Woods ranges are high pressure laminates which are available in horizontal, general purpose, postforming grade (HGP) as standard.

Younique®

DESIGN A LAMINATE by FORMICA GROUP

Younique® by Formica Group is a High Pressure Laminate with a customised, printed image as its decorative face. The printed image in **Younique** laminates is incorporated in the laminate structure and not just printed on the surface; this affords a much greater resistance to damage and ease of maintenance. **Younique** laminates can be either single sided, thin High Pressure Laminate, or Compact in single sided or double sided format in varying thicknesses and textures.

All **Younique** projects are priced on volume and complexity. For further information on sizes, pricing quotes, lead-time, file transfer options, etc. go to www.formica.com or contact your local Formica Group sales office or representative.

Performance Features
